Senior .Net at Fleet System   2020-*Now*

Riyadh, Saudi Arabia
- GPS
- PROTCOLS
- TCP, UDP
- C#
- Service Worker
- PHP
- Blazor
- Asynchronous

ITEC C# programmer   *2019-2020*

Madinah Road, Jeddah
- Net framework
- ASP
- Oracle DB

IT Department Manager: *2015-2019*

Third industrial Jeddah, Saudi Arabia Reemas kids CO,

Computer Engineer (Sky Center)   *2011-2015*

Aden, Yemen

Internet Manager   *2009-2001*

Abyan, Yemen
- Visual Basic 6.0 Language.
- Started with SQL server (Query)

Hall of Fame of MICROSOFT

In March 2016 I got the Thanks
from Microsoft
Go to [Microsoft](#)
And search for GeeSuth

Hall of Fame of Sony

In the same year I was able to
found bug in sony.com

SKILLS

→ Used the Programming in every thing

→ Analyst Data

→ Linux OS

→ Android

→ Windows All Version

→ Internet

→ Data structure

→ Register

→ API

→ Re-searcher bugs.

HOBBIES & INTERESTS

- Reading
- Listening to music
- Walking
- Watch Films

WORKING WITH:

Every day in my life ALhumLLah A got something New to my Experience:

- Android:
  - → Xamarin | Ionic | Firebase | flutter
    - Firebase Database of google
    - Mega Servers (upload Files)
    - SQLite
    - A lot of Library

- ASPX:
  - → C# Web forms:
    - Telerik reports
    - Ajax
    - jQuery
    - Bootstrap
    - Else.

- Security And pen tester:
  - → Vulnerabilities:
    - SQL Injection
    - XSS (cross-site scripting)
    - Privilege Security
    - Uploading
    - Run-time error
    - HackerOne Member
    - Exploit venerable servers
      - For all types

- Others:
  - → Finger Machine | CCTV
    - Employers Management (fingers)
    - Install CCTV Camera

In IT department I Learn and do a lot of things:

- Repair and care Server's
- Programming tools and systems by C#
- Developing tools for help others department in work
- Data integrity & care security issues
- Data Analyses processor
- Helpdesk others points PC and take care of

Programming:

- **C#**
  - .NET 6
  - .NET 5
  - Blazor
  - .Net Framework
  - Core 3
  - MVC 5
  - Web Form
  - Windows Application
  - ADO
  - ASP
  - Razor
  - API
  - Windows services
  - Entity framework
  - Entity Framework Core
  - OOP
  - Azure cloud
- **Vb.Net**
- **Dart**
- **PHP**
- C++

Smart phone platform:

- **Xamarin**
- **Flutter**
- **Ionic**

Databases:

- **Oracle Database**
- **MS SQL server**
- **SQLite**
- **PhpMyAdmin**
- **Firebase database**

Environment:

- **Visual Studio**
- **VS Code**
- **Sublime**
- **Notepad++**

OS:

- **Windows**
- **Linux**

Projects I worked on ([follow link for more](#))

Just I finish many projects with most platforms some of was when I'm student and others like freelancer and Sure, some when I'm working for

Fleet System Co: [t4gps.cloud](#)
Saudi Arabia, Riyadh,

- **Vehicle Tracking System (Web App & Windows App)**
